

OSHA Docket
Docket # H-122
Room N-2625
200 Constitution Ave. N.W.
Washington, DC 20210

Dear Sirs:

I understand OSHA is considering new rules that would add even more government involvement with the Class Act. I am most definitely opposed to these regulations.

Government agencies want to increase control over business. That's not right. We, the public, are being forced to fight for our rights as taxpayers and Americans against unfair and excessive regulation. As an American, I do not appreciate being told by some government agency how to conduct my day-to-day business.

Government regulations should be fair, equitable, and serve some legitimate objective. This is not the case with these restrictions on smoking. It appears that any time the government can increase their involvement in our lives they do it.

I urge you to support a fair solution. This proposal is not fair.

Sincerely,

Vivian West Koschin

Vivian West
Class Act

P.S. I do not agree with smoking, but neither do I agree that small businesses like my self should be penalized by adding extra expense to the shop owners. Smokers can go to smoking establishments.
